

Bonastre Pro

Diamond resins + Bonastre Pads

For the most demanding results

High quality resin diamonds that will surprise you for the amazing results you'll get. Restore and polish with only water.

Bonastre Pro it's an easy and fast polishing system for marble, travertine, limestone, concrete & terrazzo, without the risk of damaging the floor, achieving a "like a mirror" finish, just like a professional polisher.

Features

- » No chemicals needed, only water, polish without scratching
- » Restore a wear floor into a brand new one
- » No dust or odors, no specialized equipment required
- » Use any floor polisher or floor scrubber (up to 400 RPM)
- » Everyone can obtain amazing results, no prior polishing experience needed.

Specifications

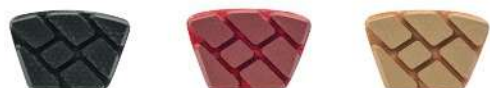

- » **Black resins:** Remove deep scratches, etch marks, heavy wear and surface stains etched areas
- » **Red resins:** Remove acid etches, light scratches and wear. Start with the red diamond resin when there are no deep scratches on the surface.
- » **Brown resins:** Use it to prepare the surface for the perfect high-gloss shine. Leaves a satin finish
- » **Yellow Bonastre pad:** Prepare the surface for a super shine.
- » **Green Bonastre Pad:** For a super polished marble, anti-skid, intense and with natural finish
